Professional Summary

Innovative Senior Frontend Developer with 8+ years of experience in building scalable web applications. Specialized in Angular, Vue.js, and emerging technologies like blockchain. Proven track record of delivering high-impact projects in fintech, e-commerce, and real estate sectors. Adept at leading teams and implementing microservices architecture to enhance application performance and maintainability.

Core Technical Skills

Frontend: Angular, Vue.js, React, Ember.js, HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS

Backend: Node.js, PHP (Laravel, Magento 2), .NET

Mobile: Flutter, Ionic

Cloud & DevOps: AWS, Docker, Kubernetes, Firebase

Other: Blockchain (Cardano), WebSocket, UI/UX Design

Professional Experience

Senior Full Stack Engineer | Fetch Technology, Đà Nẵng | Jan 2023 - Present

- Spearheaded development of opswiz.io, a comprehensive vessel tracking and package management solution.
- Implemented microservices architecture, resulting in enhanced maintainability and rapid feature delivery.

- Reduced legacy system performance issues, leading to significant cost savings.
- Mastered EmberJS and Laravel, expanding the team's technological capabilities.

Senior Frontend Engineer | Reitcircles Labs (Remote) | Oct 2023 - Jun 2024

- Lead frontend development for a Cardano blockchain-based real estate trading platform.
- Successfully launched tradable tokens on the blockchain, enabling marketplace transactions.
- Integrated Cardano services with Decentraland applications, expanding platform functionality.
- Contributed to projects such as Reitcircles
- Token launched at Taptools

Senior Frontend Engineer | NFQ Asia, Đà Nẵng | May 2022 - Dec 2022

- Developed and optimized Roadsurfer's booking system, handling 500+ daily reservations.
- Implemented server-side rendering and microservices architecture, significantly improving website performance.
- Utilized NuxtJS and Tailwind CSS to accelerate development cycles.
- Contributed to projects such as Roadsurfer

Senior Frontend Developer | Axon Active Vietnam, Đà Nẵng | Nov 2021 - May 2022

- Developed and maintained 8Cap's customer payment portals, supporting over 3 million users.
- Implemented over 30 payment methods for deposits and money transfers to MT5 and MT4.
- Utilized AWS and lambda functions for serverless production deployments.
- Automated deployment for 15 multi-tenant sites.
- Enhanced legacy systems, resulting in significant cost savings.
- Applied new technologies for easier upgrades and feature implementations.
- Contributed to projects such as 8Cap Portal

Frontend Engineer | Dallmeier Electronic Vietnam, Đà Nẵng | Jan 2019 - Nov 2021

- Developed and maintained CCTV camera streaming and AI data analysis web applications using HTML, CSS, Angular, and Magento 2.
- Rigorously tested and debugged applications, ensuring high quality.
- Delivered products using Kubernetes and implemented microservices.
- Followed Agile methodologies and tracked tasks with Jira.
- Collaborated with stakeholders to implement new features.
- Delivered over 10 projects on time and within budget.
- Enhanced UI/UX, improving user experience.
- Gained expertise in Magento 2, Gstreamer, WebRTC, and RTSP streaming.

- Contributed to projects such as [Dallmeier software](#)

Frontend Developer | FPT Software, Đà Nẵng | Jan 2018 - Jan 2019

- Developed an ERP web application for the MJS project using HTML, .NET MVC, CSS, Angular 5, and SQL Server.
- Followed strict waterfall methodologies.
- Created status and progress reports using Jira.
- Rigorously tested and debugged applications.
- Analyzed technology performance to improve speed, cost, and efficiency.
- Enhanced UI/UX, receiving positive client feedback.
- Delivered all milestones on time.
- Boosted website conversion rates by 40% through UX improvements.
- Contributed to projects such as [MJS](#)

Junior Full Stack Developer | TEDU, Remote | Jan 2016 - Jan 2018

- Developed e-commerce systems using HTML, JavaScript, CSS, .NET, and Angular 2.
- Tested, debugged, and upgraded applications.
- Created and refined designs with AdobeXd.
- Improved UI/UX, enhancing user experience.
- E-Leaning from [TEDU](#)

Network Specialist | FPT Telecom, Gia Lai | Jan 2015 - Jan 2016

- Supported a team of network engineers in troubleshooting network transmission problems.
- Worked directly with clients to clarify requirements and provide suggestions.
- Improved transmission quality, satisfying customers.
- Contributed to team success and helped achieve good college grading.

Freelancer and Others (Updating...)

- [Shift Management](#)
- [Video Transcipt Editor](#)
- [Vessel Tracking](#)
- [Exchange Trading Portal](#)

Education

Bachelor of Information Technology | Industrial University of Ho Chi Minh City | 2011 - 2015

Graduated with Good level in Computer Science

Languages

English (Professional working proficiency), Vietnamese (Native)

Interests

Team sports, Football, Music, Science fiction
